EXPERIENCE SUMMARY

- Contributed to existing ASP.NET MVC codebase on an Agile/Scrum development team.
- Immersive boot camp with more than 600 hours of instruction and hands-on coding experience.
- Used Entity Framework to create CRUD pages for models e.g. photo storage and retrieval.
- Utilized Razor syntax to display data from EF models.
- Developed schemas and executed queries on databases using stored procedures with MySQL in SSMS.
- Styled front-end pages using Bootstrap and CSS3.
